Subject: LDO Food Hub Routing Agreement

Dear Liz,

Can you please comment on the following as this involves a road under the authority of Norfolk County Council Highways Department please.

The Planning Obligation (copy attached), it covers an obligation that they may use the existing route for HGVs without any upgrades to the roads.

There is a conflict in that the S106 allows for site clearance, demolition, archaeological investigations remedial work for adverse ground conditions and services to be carried out, but most of these operations (maybe the exceptions being Archaeology and site investigation) are part of the development under 2.20 of the Adopted Local Development Order (copy attached).

I look forward to your comments in relation to this matter.

Regards

Peter Milliken
Chair Easton Parish Council
